12.45 - 13.30

Lunch - Networking

13.40 - 14.40

Two different options :

- **Start-up Barcamp : Start-ups interact with data experts**

Participatory workshop dedicated to start-ups, allowing participants to exchange in small groups with public and private sectors' representatives. The objectives of this workshop are to share start-ups' experiences regarding the use of healthcare data and find ways to speed up their development and their access to the market. Several themes will be discussed around the access, use and valuation of healthcare data.

- **Interviews sessions : One-to-one interactions with international experts**

Meeting session with international experts allowing each participant to discuss themes of its choice. These one-to-one interviews will be an opportunity for everyone to take inspiration, know and interact with our experts individually.
